

2022-2023 ASSEMBLY SHOW TOPICS*

The Glow Show

This super-charged show explores types of light (UV, Laser, White), how energy changes from one type to another, heat & fire, static & current electricity

Amazing Air

This high-flying show helps us understand the powers of air, how explosive air pressure can be, chemical changes, flying loo roll & levitating fun

Radical Reactions

This crazy chemistry-based show is full of fizz-pop potions, cool colour changes, acids & alkalines and flying flames to help us to understand atoms & molecules

Magnificent Matter

Dazzling Dry potions show us how molecules behave in different phases of matter, meet molecules in smoky bubbles, giant clouds, and fizzy dry ice “burps”

**Don't see what you're looking for? We can customise a show to suit most themes, just ask!*
